- BIOCLENZ SOAP
- HY-G-CLENZ SOAP
- LONA SOAP
- NOVACLENZ SANITIZER
- NOVADERM LOTION
- NOVADYNE SOAP
- TOUCH FREE DISPENSER
- TOUCH FREE FAUCET

Your Cleanroom's Worth It

Frequency of handwashing and associated conditioning treatments can only be assured when the dispensing system is simple and efficient. The Micronova Touch Free Soap Dispenser and soaps offer an easy and risk-free system for cleanrooms and sterile areas.

TOUCH FREE DISPENSER

The patented touch free soap dispensing system effectively cuts back on cross-contamination and waste in the cleanroom and supporting areas. The dispenser delivers a consistent pre-measured dose of soap, sanitizer or lotion into the palm of the hand cleanly, safely and economically. The no-drip, no-waste features, originally designed with cost savings in mind, translate into cleanroom compatible features.

The unit is activated by an electronic eye, dispensing a predetermined amount of soap when the infrared beam is interrupted by a hand or wiper. The unit runs on 4 'D' size batteries.

The wall mounted unit complies with OSHA, CDC and the Americans with Disabilities Act.

Part Number: ICDISP-1

TOUCH FREE FAUCET ADAPTER

The Touch Free Faucet Adapter converts an existing standard gooseneck faucet to a state-of-the-art Touch Free Faucet. Utilizing the existing faucet, the sensor unit mounts between the faucet neck and base.

The Touch Free Faucet Adapter is an effective water control system ideal for cleanroom applications. Water flow is activated only when hands or wipers are passed in front of the electronic sensor. This control of water flow can reduce water use by nearly 70%. By using the Touch Free Faucet Adapter in conjunction with the Touch Free Soap Dispenser, maximum contamination control is achieved.

Part Number: ICTFF-2

AQUAHOL™ 70%/30% Isopropyl Alcohol Solution

AquaHol is a custom blend of 70% Isopropanol in WFI, terminally filtered to 0.1 microns. When used in conjunction with the **Touch Free Dispenser**, personnel have the assurance that a predetermined dose of sterile alcohol, 1-5 mls, will be dispensed onto the hands or gloves. The “Touch Free” element eliminates the chance of cross contamination. Double bagged, the alcohol and delivery system are irradiated and validated.

Part Number: IC-220

BIOCLENZ™ CHG Hand Soap

Available in 2% and 4% formulations, this Chlorhexidine Gluconate (CHG) skin cleanser offers rapid and persistent action against all gram positive and gram negative organisms. With a high sudsing emollient base, and an on-going kill rate of up to 6 hours, this formulation is recommended for any environment where hands are exposed to infectious pathogens.

Part Numbers: IC-320, IC-340

HY-G-CLENZ™ Anti-bacterial Soap

Hy-G-Clenz anti-bacterial lotion soap meets OSHA standards and is effective against a wide range of both gram positive and gram negative bacteria. The unique blend of .3% Triclosan and natural moisturizers offers an ideal formulation for frequent handwashing. This special blend will kill germs while leaving hands feeling soft and smooth. Hy-G-Clenz is a rich, lotion hand soap for use in a variety of settings ranging from healthcare to food service.

Part Number: IC-420

LONA™ SOAP Low Sodium Hand and Glove Cleanser

LoNa soap is a low sodium cleanser specially designed for the cleanroom. The low sudsing formulation has extremely low ion counts - less than 100 parts per billion for sodium. The cleansing formula is pH balanced and is gentle enough to be used on the hands and face. Designed for high tech cleanrooms where contamination control is addressed prior to gowning, LoNa soap is available in bulk for customized dispenser systems.

Part Number: IC-120

NOVA-CLENZ™ Instant Hand Sanitizer

NovaClenz instant hand sanitizer is a highly effective and fast acting hand cleanser which requires no sink, water or towels. The clear gel contains 60% ethyl alcohol to provide excellent antiseptic and sanitization capabilities. The formulation helps to prevent bacterial transfer including Pseudomonas, Salmonella and Staphylococcus. Effective in reducing the incidence of nosocomial infections, NovaClenz is an essential for medical and health care applications.

Part Number: IC-210

NOVA-DERM™ Barrier Protectant Lotion (with antimicrobial)

NovaDerm barrier protectant lotion is a unique, non-greasy skin care formulation with active ingredients proven to soften dry skin while at the same time re-moisturizing skin tissue. NovaDerm lotion can be used as an effective barrier and moisturizer with or without gloves.

NovaDerm does contain silicon.

Part Number: IC-510

NOVA-DYNE™ General Purpose Soap

A general purpose soap for use in commercial and industrial settings. This pink lotion soap has built-in emollients and good sudsing. The formulation is pH balanced so skin is left feeling smooth and deodorized. The synthetic formulation is free rinsing, leaving hands free of any tackiness or residue.

Part Number: IC-110
