- ACME THREAD ADAPTER
- BUCKETS & WRINGERS
- CART SYSTEMS
- CORNER CLEANER ADAPTER
- MEGASWAT ADAPTER
- MEGATIP SWAB
- NOVASQUEEGEE ADAPTER
- UNIVERSAL HANDLE

*Your Cleanroom's Worth It*

**Reliability and adaptability are important factors** when making your choice of cleanroom hardware. The Micronova cleaning support system comprises a series of electropolished stainless steel quick disconnect adapters and handles. These tools carry the various mop heads and attachments, offering the optimum in functionality and adaptability.

## UNIVERSAL HANDLE

The core of the hardware system is the **Universal Handle**.

The electropolished stainless steel handles have Delrin components giving strong all-around connections and hard-wearing properties. The handle is available in extendible or single length versions. The entire unit can be autoclaved.

## ADAPTERS

The adaptability of the **Universal Handle** can be increased by adding one of two adapters.

The **Acme Thread Adapter** is available as a male (SSA-3) or female (SSA-2) unit. Made with stainless steel and Delrin, these threaded adapters allow the operator to add other janitorial heads or handles to the Universal System.

When used with the '**T**' Mop or **MegaTip** the Acme adapters can be combined to create a viable cleaning system for isolators and similar enclosed 'hoods'.

Part Numbers:

SSU-1 Extendible Handle 38"-72" Long  
 SSU-3 Extendible Handle 62"-120" Long  
 SSU-2 8" Handle      SSU-6 25" Handle  
 SSU-4 61" Handle    SSU-7 51" Handle  
 SSU-5 37" Handle

Part Numbers:

SSA-2 'Female' Acme Thread Adapter  
 SSA-3 'Male' Acme Thread Adapter

## CORNER CLEANER ADAPTER

This innovative cleaning sponge has the same patented roll/lock mechanism featured on the **NovaMop**. The **Corner Cleaner** can be used in wet or dry applications and is ideal for the tight angles found in corners, window recesses and door jambs.

## MEGASWAT™ ADAPTER

For applications where cleaning has to be carried out around heavy process equipment or calibrated apparatus. The **MegaSwat** has a flexible polyethylene interior with a choice of three slip covers to cope with hi-tech or sterile applications.

The **MegaSwat** is also available in a lengthwise formation for cleaning the inside of tanks and chambers.

Part Numbers:

QDCH-1 Corner Cleaner Adapter 3" x 11"  
 CC-U Corner Cleaner Urethane Sponge Roll Mop Head

Part Numbers:

QDMS-1 MegaSwat Adapter 2-1/2" x 16" Blade  
 MS-1 MegaSwat Cover-PVA  
 MS-2 MegaSwat Cover-NovaLite  
 MS-6 MegaSwat Cover-NovaPoly

QDMST-1 MegaSwat T Adapter 2-1/2" x 16" Blade  
 MST-1 MegaSwat T Cover-PVA  
 MST-2 MegaSwat T Cover-NovaLite  
 MST-6 MegaSwat T Cover-NovaPoly

## MEGATIP™ SWAB

A substantial cleaning 'swab', the **MegaTip** is a 4" x 1.5" probe which, when used with the **Universal Handle**, will easily reach to clean lighting recesses, corners and angles between walls and ceilings and other areas where a mop or wiping method is not ideal. The **MegaTip** is also available in custom sizes.

## NOVASQUEEGEE™ ADAPTER

In addition to the standard rubber blade, the **NovaSqueegee** offers blades or 'ribbons' in other cleanroom fabrics. The **NovaSqueegee** comes in several sizes and can be used with or without the **Universal Handle** for cleaning windows, screens, cleanroom floors and walls.

Part Numbers:

QDMT-1 MegaTip Adapter 9" Long  
 MT-1 MegaTip Cover-PVA  
 MT-2 MegaTip Cover-NovaLite  
 MT-6 MegaTip Cover-NovaPoly

Part Numbers:

QDNS-12, 18 & 22 NovaSqueegee Adapter 12", 18" & 22" Blade  
 NS-12, 18 & 22 12", 18" & 22" PVA Blade  
 RS-12, 18 & 22 12", 18" & 22" Rubber Blade

## SLIM'T™ DOUBLE BUCKET CART

This simple and effective double bucket system is comprised of an electropolished stainless steel frame that easily transports two 6 gallon buckets. Excellent maneuverability is achieved with the 360° rotation of the caster wheels.

Each bucket measures 19-1/4" x 9-1/2" x 9-1/2" making the system suitable for use with a variety of mop heads.

The entire unit, including the polypropylene buckets, is autoclavable.

Part Number:

**C-7** Double Bucket Cart (2 buckets included)

Designed to wring the **SlimLine** and **'T'Mop** series as well as other flat pad mops. The **Slim'T' Wringer's** simple design allows the operator to wring out excess liquid leaving the mop damp enough to effectively saturate the surface being cleaned. Crafted from electropolished stainless steel for durability and long life. Autoclavable.

Part Number:

**W-9** Slim'T' Wringer

## BUCKETS & WRINGERS

Longevity and ease of replacement are factors which affect each cleanroom to a different degree.

In addition to its own designs in hardware, Micronova carries a selection of buckets and wringers to complement our standard cleaning systems.

Part Numbers:

- B-1** Yellow Plastic Bucket with 3" casters, opening size 12-1/2" x 19", capacity 44 qts.
- W-1** Yellow Plastic Wringer (fits B1), 24 to 36 oz. capacity
- B-2** Yellow Plastic Bucket with 2" casters, opening size 13" x 17", capacity 35 qts.
- W-2** Yellow Plastic Wringer (fits B2), 16 to 32 oz. capacity
- B-3** Circular Stainless Steel Bucket with 2" casters, opening diameter 13-3/4", capacity 32 qts.
- W-3** Lightweight (2 lbs.) NovaWringer for use with NovaMop. Stainless Steel and Delrin
- W-6** Stainless Steel Downward Press Wringer (fits B3), 16 to 32 oz. capacity

## SLIMLINE™ CART SYSTEM

This electropolished stainless steel cart is available as a two or three bucket system. Each polypropylene bucket measures 19-1/4" x 9-1/2" x 9-1/2" and has a 6 gallon capacity.

The stainless steel **SlimLine Wringer** completes the system. This wringer will wring all Micronova mop designs and various sponge and string mops. The cart can be purchased without the wringer when using self-wringing mop systems. The entire unit is autoclavable.

Part Numbers:

- B-7** SlimLine Bucket
- B-7C** SlimLine Bucket Casters
- C-2** SlimLine Cart (2 Bucket System)
- C-3** SlimLine Cart (3 Bucket System)
- W-7** SlimLine Wringer
